Teykos

Teykos è un'azienda specializzata nelle decorazioni pareti e pavimentazioni per ambienti interni ed esterni.

Ad un mercato in continua evoluzione l'azienda ha sempre risposto adeguando il proprio assortimento con proposte innovative, in grado di soddisfare esigenze specifiche e attuali.

Per fare ciò Teykos pone molta attenzione alla ricerca di prodotti dal design contemporaneo con caratteristiche innovative e performanti.

Di notevole interesse la collezione di rivestimenti murali in WPC per esterni e Polyforte per interni. Quest'ultima si arricchisce dei nuovi listelli da parete Teyclip che, grazie al rivestimento in PVC, sono perfetti anche in ambienti umidi. Dotati di un sistema ad incastro possono essere installati in totale autonomia e con poche semplici mosse.

La vasta gamma di cornici e profili in duro polimero comprende boiserie, sgusci, profili porta-led, battiscopa, pannelli, fregi e decori che si adattano perfettamente ad ogni ambiente, dal classico al moderno.

La linea dei pavimenti completa l'assortimento Teykos.

I pavimenti in WPC sono ideali per gli esterni e offrono la bellezza naturale del legno con la resistenza dei materiali compositi.

La collezione da interno, con finiture ultra realistiche, è resistente ed impermeabile grazie alla combinazione di polvere di pietra e polimeri con sottopavimento integrato, che garantisce un montaggio facile e veloce.

Teykos is a company specialized in wall and flooring decorations for both indoor and outdoor environments.

In response to a constantly evolving market, the company has consistently updated its product range with innovative solutions designed to meet current and specific needs.

To achieve this, Teykos places great emphasis on sourcing products with contemporary design, featuring innovative and high-performance characteristics. Of particular interest is the collection of WPC wall coverings for outdoor use and Polyforte coverings for interiors.

The latter is now enhanced by the new Teyclip wall slats, which, thanks to their PVC coating, are also perfect for humid environments.

Equipped with an interlocking system, they can be installed independently with just a few simple steps. Teykos also offers a wide range of moldings and profiles in high-density polymer, including boiserie, cove moldings, LED-ready profiles, baseboards, panels, friezes, and decorative elements that suit any style, from classic to modern. The flooring line completes the Teykos range. WPC floors, ideal for outdoor spaces, combine the natural beauty of wood with the durability of composite materials. The indoor collection, featuring ultra-realistic finishes, is both waterproof and highly durable, thanks to a combination of stone powder and polymers with an integrated underlayment that ensures easy and quick installation.

COLLECTION IN POLYFORTE

Collezione Polyforte

Nell'arredamento contemporaneo la boiserie assume un valore estetico importante e consente di dare ritmo agli spazi interni e di armonizzare l'arredamento. I giochi grafici di linee ed ombre creati dalle composizioni conferiscono agli ambienti un grande impatto decorativo, sia nello stile classico che moderno. La nostra collezione prevede una vasta gamma di profili realizzati in Polyforte e adatti a molti tipi di arredo. Vengono proposte soluzioni che permettono qualsiasi tipo di personalizzazione, attraverso la fornitura di articoli già assemblati, compreso il pannello in cartongesso, pronti per essere installati, oppure pre-tagliati. Quindi praticità e velocità di montaggio per ottenere composizioni che trasformeranno gli spazi della casa.

Collection in Polyforte

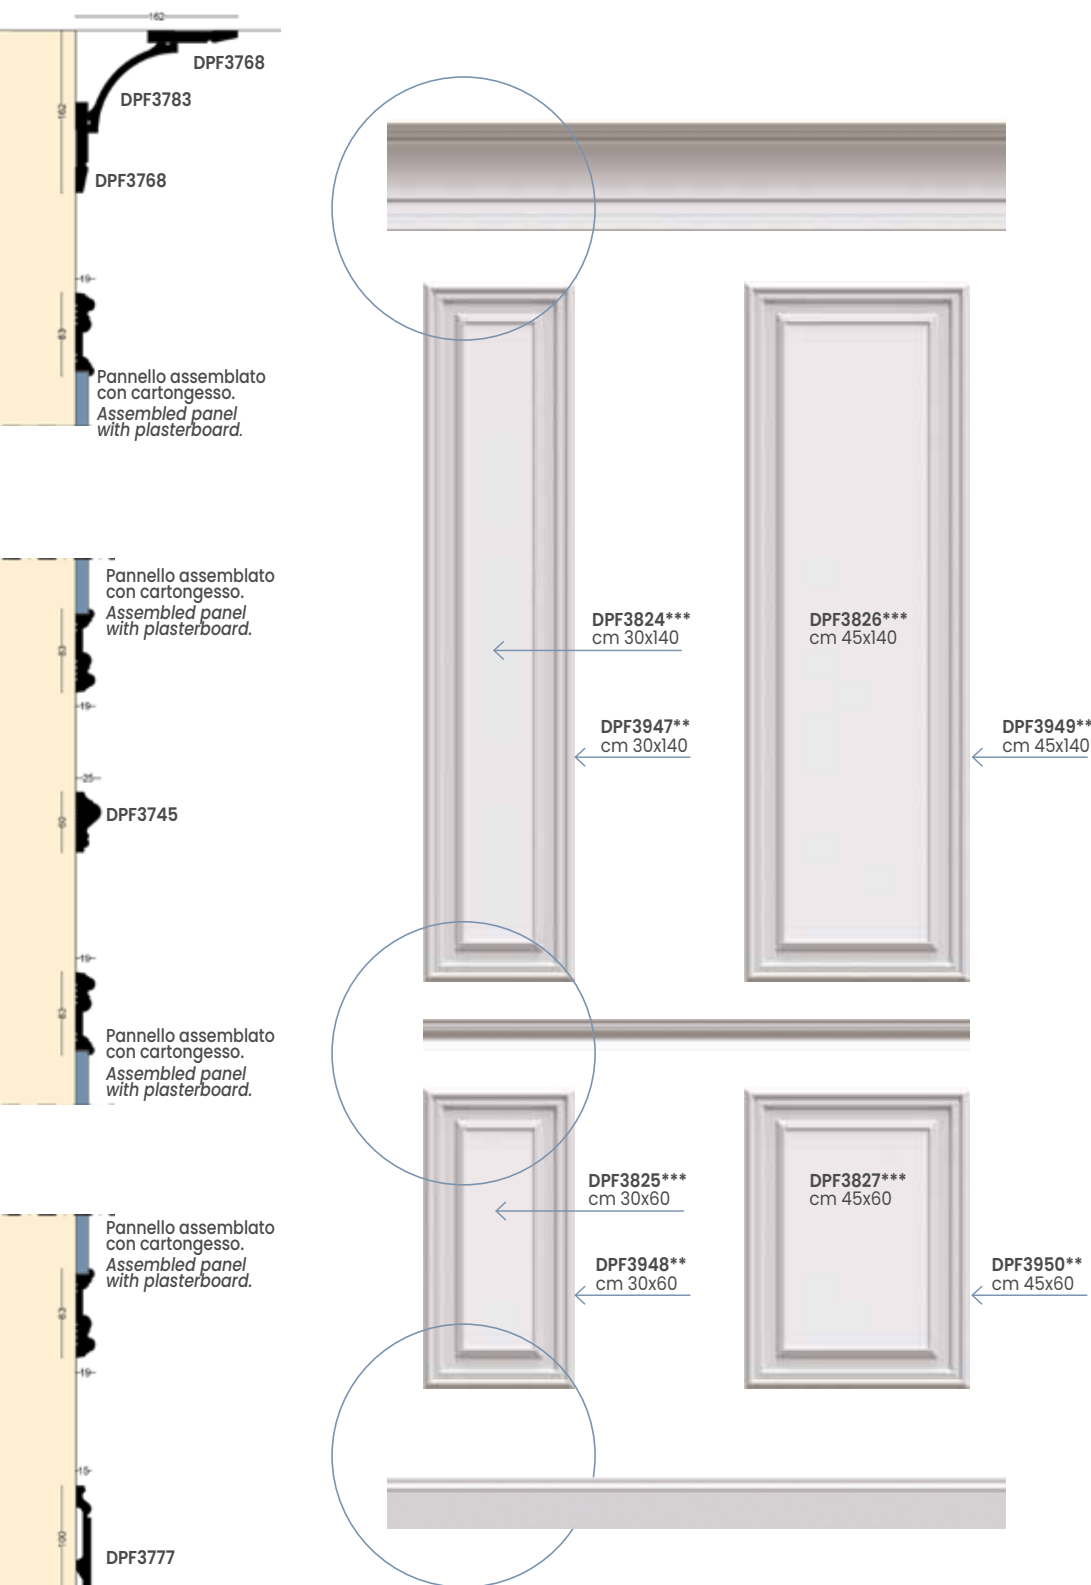

In contemporary furniture, boiserie takes on an important aesthetic value and allows you to give rhythm to the interior spaces and to harmonize the decor. The graphic games of lines and shadows created by the compositions give to spaces a great decorative impact, both in the classic and modern style. Our collection includes a wide range of profiles made up of Polyforte and suitable for many types of furniture. We propose different solutions that allow many type of customization, through the supply of items already assembled, including plasterboard, ready to be installed, or pre-cut. That is to say easy and quickly assembly to obtain compositions that will transform the spaces of the house.

Laccature RAL per profili

RAL LACQUERS FOR PROFILES

Realizziamo, su specifiche richieste da parte del cliente, laccature con vernici RAL su tutti i profili della linea Polyforte presenti in questo catalogo, ad esclusione dei rivestimenti murali.

Per ogni tipo di utilizzo, dalle boiserie montate ai singoli profili come cornici, marcapiani, battiscopa ecc; per avere qualsiasi tipo di prodotto laccato e pronto per il montaggio. Consultate il listino per verificare quantità e costo.

With specific requests from the customer we realize RAL lacquering paints on all the profiles of the Polyforte line present in this catalog, excluding the coatings murals. For every type of use, from assembled boiserie to individual profiles such as, frames, string courses, baseboards etc; to have any type of lacquered product and ready for assembly. Check the price list for quantity and costs.
